Well produced, well edited and cut together. Fun lively and entertainment. It made the most of some good on screen talent and showed scale and activity of freshers' week. “ Having a complex event thrown at you at short notice is a challenge for any professional production company let alone a student TV station. This request came from the University AU president who wanted a Boxing Varsity to be covered with just three weeks' notice. This was not simply single camera reportage but multi-camera live HD multi-stream with pre-records and slo-mo replays. A 32 person crew was quickly assembled, 18 of whom were freshers, kit was acquired, some of it only arriving on the day due to confusion by the supplier. While the innovative technical achievement was significant to put all this together it was not the only accomplishment. ”
